

It's the DAWN of a new day

Neon is our next-generation family of on-line instruments that have been completely reimagined to take advantage of the latest electronic and optical components, plus a series of *critical user experience enhancements to deliver greater ease-of-use and improved workflows* to customers. We call this our Smart Services Platform.

Latest electrical, mechanical and optical components

Large, ease-to-use interface

Greater field serviceability

Smart Services Platform

1. System Ready Monitor
2. Real-time Health Indicators
3. Collection Mode
4. Inline DLS options (4 locations for DAWN)
5. Replaceable Flow Cell
6. CheckPlus – continuous self-diagnostic reporting
